

CHRISTIAN MICHAEL PHOTOGRAPHY STORYBOOK PRICE LIST

StoryBooks are the latest way to treasure and remember your babies first year. To create one of these gorgeous everlasting memories we would photograph your baby within his or hers first four months, then for two more sessions at four monthly intervals giving you a total of four sessions worth of photography documenting your baby's growth and development.

Each session usually lasts about an hour or as long as your baby is happy, although we make no restrictions on time.

After the session we will display at least 25 high quality images to you, either at our studio or via a password protected web gallery on our website. Included is a 7x5 print of your choice from each session.

We will store all of the images from each shoot, and at the end of your final session we will sit down with you to discuss your final choice of images to be put in your StoryBook Album.

Prior to ordering these items for you we will design them to your requirements and email you a proof of what the product will look like once finished for your approval

These books are available in two different types:

Coffee Table StoryBooks:

These are beautiful digitally press printed books and are produced on a Satin, heavyweight paper printed on both sides with your choice of images and/or text. You also have the choice of cover images and/or text.

Bellissimo StoryBooks:

These stunning books are simply gorgeous. They are produced on striking photographic pages which when open allows you to view full 28x10 pages. These pages can contain photos and/or text. The Albums are covered in a soft luxurious black leatherette cover, which can also be embossed. The pages are available with a lustre, or a Metallic finish.
